

Schenker Limited Pension Fund

Investment Implementation Document (“IID”)

This Investment Implementation Document (“IID”) covers the Schenker Limited Pension Fund (the “Fund”) and details the policy of the Trustee relating to the implementation of the Fund’s investment arrangements, based on the Principles set out in the Fund’s Statement of Investment Principles (“SIP”) dated November 2023.

Investment strategy

The Fund’s investment strategy is invested according to the following broad asset allocation:

Asset Class	Asset Allocation (%)	Expected Return (relative to fixed interest gilts ¹) (% p.a.)
Absolute Return Bonds	20.0	1.0
Buy & Maintain Bonds	45.0	1.4
LDI	35.0	-
Total	100.0	1.0

1. 10-year assumptions as at 30 June 2023 relative to Bank of England 10-year Gilts (net of management fees).

The expected returns shown in the above table represent long-term expectations of asset classes as a whole.

At the time of writing, the Fund also has legacy assets not included in the table above with Partners Group (Private Credit) and Apollo (Semi-Liquid Credit).

Given the Fund still holds these legacy assets, the Trustee recognise that the strategic allocation outlined above is not immediately achievable. As the legacy assets run-off and distribute capital back to the Fund, there is a desire from the Trustee to move toward the strategic allocation which the Trustee will monitor on a regular basis.
